INTERNATIONAL CONGRESS ON DROWNING PREVENTION

Royal Spanish Lifesaving Federation (RFESS) organizes the second edition of the International Congress on Drowning Prevention (CIPREA).

This event is a biennial opportunity to bring together the main experts, research, systems and information on drowning prevention, rescue, lifesaving and water safety.

CIPREA 2018, in Benalmádena, Málaga, also gives us the opportunity to report on the progress in the response to avoid drowning. For this reason, the Federation is requesting abstracts from researchers and experts in the eight thematic areas that the Congress is structured.

These themes reflect the challenges to reduce drowning at the regional, national and global levels.

The Congress will focus on water activities from the perspective of the following areas:

- Prevention
- Data
- Swimming and Water Safety Education and sport
- Rescue
- Medical
- Disaster and Impacts of Climate Change
- Migrants and Refugees
- Innovations

WHY PARTNER WITH CIPREA 2018?

The **CIPREA 2018** has several collaboration possibilities available, providing partners and exhibitors with a choice to participate in the event. Support of this event will provide your organization with opportunities to:

- Maximize one-stop exposure and interaction with worldwide delegates.
- Create a network with key decision-makers of private and public entities.
- Build and reinforce strategic relationships.
- Contribute to furthering the work of drowning prevention in Spain and around the world.
- Involve other people in the Congress.

This opportunity will allow the approach and knowledge of your products to delegates through:

- Face-to-face time at booth during the Congress.
- Federation website exposure before and after the Congress.
- Social media exposure before, during and after the Congress.
- Introduction of promotional materials in delegate package.
- Networking opportunities during the Congress and gala dinner.

The support of the 2nd International Congress on Drowning Prevention 2018 will contribute globally to the prevention on drowning and to the fact that the event keeps growing.

It is also an unique opportunity to ensure that drowning prevention campaigns and workshops are accessible to those who need it most but do not have the necessary resources to carry it out.
